EDUCATION

2024   **B.SC in Computer Science and Engineering**

Khulna University of Engineering and Technology

Major: CSE

Result: CGPA 3.5 on 4.0 Scale

2019   **Higher Secondary Certificate**

Hermann Gmeiner College

Result: GPA 5.0 on 5.0 Scale

2017   **Secondary School Certificate**

Hermann Gmeiner College

Result: GPA 5.0 on 5.0 Scale

PROJECTS

Shopping Guide Application

An android application that will guide your shopping.This app will suggest you the shopping mall name which is near to your house.You can check offering sale provided by different brand and can also check facilities available in this shopping mall.

Hospital Management System

Developed a user-friendly Hospital Management System using SQL, ensuring smooth management of patient records and appointment schedules. The system effectively organizes patient information and medical staff data, ensuring seamless hospital operations. management.

Skills

Web Development

- HTML
- CSS
- JS
- PHP

Mobile Development

- Java
- Swift

Database Management

- SQL

Programming Languages

- C
- C++
- Python

STRENGHTS

- Teamwork
- Problem Solving

INTERESTS

- Machine Learning
- AI
- Video Games

PROJECTS

Blind Stick

Designed and prototyped a smart blind stick using Arduino, featuring obstacle detection, water sensing for road conditions, and a light sensor for night-time pedestrian safety. This project showcases my hardware prototyping skills and problem-solving abilities in addressing real-world challenges.

Shopping Buddy

Developed a dynamic shopping website using HTML, CSS, PHP, and Laravel, enabling users to browse and purchase products effortlessly. This project highlights my proficiency in web development and creating user-friendly interfaces.

Blood Donation Application

Developed a life-saving iOS application using Swift that facilitates blood donations, connecting donors and recipients seamlessly. This project underscores my ability to develop impactful applications that address vital societal needs.

Chittopot

An android application that will suggest content according to your mood.
